SURAJ ARYA

Full Stack MERN Developer | React.js | Next.js | Node.js

Gwalior, MP | +91 7509478047 | surajarya460@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONALSUMMARY

Results-driven Full Stack MERN Developer with 1+ year of hands-on internship experience designing and deploying scalable web applications. Skilled in React.js, Next.js, Node.js, and MongoDB with strong command over Redux Toolkit, TypeScript, and REST API development. Proven ability to deliver complete end-to-end features — from secure JWT authentication and role-based access control to payment gateway integration and admin dashboards. Passionate about writing clean, maintainable code and building user-centric products ...and building scalable admin dashboards with full CRUD operations.

EXPERIENCE

MERN Stack Developer Intern — PN Infosys **Mar 2025 – Mar 2026**

- Engineered and deployed full-stack web applications using the MERN stack, contributing across all phases from design to production
- Built modular and reusable React components, reducing code duplication by ~30% and improving UI performance
- Designed and integrated 20+ RESTful API endpoints, improving frontend-backend data flow efficiency by ~40%
- Implemented secure JWT-based authentication and role-based access control (RBAC) for multiple user roles
- Developed a full-featured admin dashboard with CRUD operations (Create, Read, Update, Delete) to manage users, data, and system workflows

PROJECTS

Internshala Clone Web Application | MERN + Next.js *Next.js | TypeScript | Redux | Firebase*

Live: clone-internshala.vercel.app **GitHub:** github.com/surajarya1999/clone_internshala

- Built a full-featured job & internship platform with SSR optimization (Next.js) *React.js | Node.js | MongoDB | Razorpay*
- Developed Admin Dashboard with CRUD operations for managing users, jobs, and applications
- Integrated Firebase Auth (Google Sign-In + OTP) with role-based access control
- Managed global state across 10+ pages using Redux Toolkit (no prop drilling)

Car Rental Web Application | MERN

Live: car-rental-with-suraj.netlify.app

GitHub: github.com/surajarya1999/Full_Stack_CAR_RENTAL

- Built end-to-end car booking system with Admin & Staff dashboards
- Implemented booking management system (approve/reject, status tracking)
- Developed full CRUD operations for users, vehicles, and bookings
- Integrated Razorpay payment gateway with secure transaction verification

TECHNICALSKILLS

Frontend:	React.js, Next.js, Redux Toolkit, TypeScript, Tailwind CSS
Backend:	Node.js, Express.js
Database:	MongoDB
Auth:	JWT, Firebase (Google Sign-In)
Deployment:	Vercel, Netlify, Render
Tools:	Git, GitHub, Postman, VS Code

EDUCATION

Master of Computer Applications (MCA) — Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal **Expected 2026**

B.Sc. Computer Science — Jiwaji University **2023**
